

ALEXANDRIA.

TUESDAY EVENING, OCTOBER 22.

Even the New York Times thinks that Radicalism is "overleaping itself." It says: "Congress has sent a committee to inquire whether Maryland has a State government 'republican in form' or not. The 'inquiry' in the case is a mere sham. What the committee intend to do is, to decide what is a 'republican form of government,' not on any evidence of facts, but according to their own ideas; and then Congress is expected to apply the rule, which they will thus lay down, to all the States in succession. Last year it was held that the government of Connecticut was not 'republican,' and probably this year Ohio will fall under the same condemnation. It would be rather curious if Congress should discover that there were only three or four 'republican' States in the Union. Where would it find its authority to reconstruct all the rest?"

In consequence of late occurrences, the Police Commissioners of Baltimore have issued an order, prohibiting all parades, processions, or assemblages of armed men within the limits of the city of Baltimore, other than the regular organized militia of the State, under their proper officers, properly and legally authorized whether the same be had by day or by night. All processions or parades of bodies of men through the public streets at night, except of the militia, are likewise forbidden, whether the persons engaged therein be armed or unarmed. These restrictions are not intended in any way to interfere with the right of the officers and enlisted men, or any others serving in the army or navy of the U. S. to have free passage through the streets of Baltimore at any time, and all the members of the police force are directed to facilitate at all times such transit within the sphere of their respective duties.

The first Grand Jury in Louisiana, composed in part of colored men, was empanelled in the First District Court of New Orleans on the 11th inst. Judge Thomas addressed a portion of his charge particularly to the colored members, assuring them that their action would be watched by the whole nation to see if they were capable of discharging all the duties of citizens. He also reminded them that they had nothing to do with political matters, and that in the preservation of the public peace, and in the good order of society, there could be no conflict between races or colors.

A letter from Washington says: "The appropriation made by Congress in July last, to defray the expenses of reconstruction in the military districts has all been expended, and a deficiency of several thousand dollars exists. The cost of reconstruction thus far is ascertained to be approximately as follows: First district, Gen. Schofield, \$199,000; second district, Gen. Sickles, \$249,000; third district, Gen. Pope, \$175,000; fourth district, General Ord, \$400,000; fifth district, Gen. Sheridan, \$350,000."

The Ohio Senators are writing letters to their Radical friends at the North—one declaring that if "the thing were to go over again, the Radicals would triumph"—and the other affirming that there must be greater economy in public expenditures, and "less quarrelling!"

It is said in the New York Herald that Jay Cooke is not a competent witness as to the merits of the present national bank system, being too deeply interested, and that "he ought to stand aside."

Mr. Henry W. Slicer, (son of Rev. Henry Slicer,) died in Baltimore on Sunday night, in the 36th year of his age. He was, deservedly, respected and esteemed.

There is a co-operative building association in Cleveland, Ohio, which has a capital of four hundred thousand dollars.

Accounts of affairs in Italy, brought by telegraphic dispatches, are very conflicting.

TELEGRAPHIC DISPATCHES.—The Albion (N. Y.) Times says: "In a case on trial last week, Charles D. Ross, in charge of the telegraphic office here, was questioned as to certain telegrams said to have passed between the co-defendants in the case. He declined to answer, on the ground that the dispatches were confidential communications and the private property of the parties. The judge ruled that they were not privileged communications, or private property in the sense mentioned, and issued an order requiring copies of the messages sent to be produced in evidence."

MARRIAGE.—A most extraordinary matrimonial arrangement has lately been consummated in Chicago. The bare announcement of "Married on the instant," by the Rev. Mr. —, at the residence of the father of the three brides, Mr. Frank Ulrich to Miss Barbara Schurz; also, Mr. Augustus Ulrich to Miss Mary Schurz; also, Mr. Henry W. Ulrich to Miss Elizabeth Schurz, would tell nearly the whole story, the only really necessary additional information being that the three bridegrooms are brothers, that in both instances, it finished up the family. It is literally the marriage of the entire families.—The three Ulrichs are all thirty young men, representing as many different trades, and the trio of daughters were comely, and reared to habits of industry and frugality.

Professor Dimitry, well known at Washington, has been appointed assistant superintendent of public schools in New Orleans.

Rev. Miss A. J. Chapin, has been called to the pastorate of a church at Mount Pleasant, Iowa. She is said to be a fluent preacher.

The next Pennsylvania Legislature will stand: Senate 20 republicans and 13 democrats; House 54 republicans and 46 democrats.

NEWS OF THE DAY.

"To show the very age and body of the Times."

A large Radical mass meeting was held in Savannah on Saturday night. About four thousand blacks and a few whites and others were present. The meeting was addressed by C. H. Hopkins and a few other whites, and Bradley Sims, and other blacks. There was no disturbance till after the meeting, when there were several collisions between the country and city blacks. They were promptly suppressed by the police, however. Few arrests were made.

The auction interests are playing the mischief with those who have stocks of goods on hand in New York. We are pointed to parcels of excellent goods which cost \$5 25 a yard in gold to import, which have sold at auction as low as \$4 50—a loss of about \$2 75 a yard. This is but a sample case, but a very sad one to many in the city. The losses by auction, we are told, mainly fall on foreign houses who have their agents in this country.

The National Intelligencer says: "We learn that there were about one hundred and twenty-five thousand dollars worth of counterfeit 7-30 bonds put in circulation. Of this number the Government received eighty thousand. This amount has been returned by the Government to the parties from whom they received them. The bonds have all been counterfeited since August last. All bonds issued previous to that date are correct."

C. C. Lips, a dealer in gold and stocks in Philadelphia, suddenly disappeared about three days since, after having victimized Third street brokers and private individuals to the extent of \$30,000. He is described as being of German extraction, stout, thick set, with a large red nose. The above amount is divided among some thirty or forty parties, and no one will lose any considerable amount.

A sea captain, named Rufus Lodge, has been put under bonds, at New Orleans, for brutal treatment of two English ladies who stowed themselves away in his ship at Liverpool, in order to get free passage to America. Among other things he had them stripped and placed in a tub of sea water and lime, and scrubbed with a coarse brush and sand paper until the skin was taken off.

A German newspaper says: "Two years ago Mr. Christian Segeweyer became father to his fifty-eighth child. His first wife gave birth to twenty-three, of which six were twins and eleven single born children. Of these fifty-eight children twenty-eight are living, all being daughters, and the man has never been sick, and enjoys good health, as do his children."

A terrible gale occurred on the Labrador coast on the 9th inst., and so far as heard from some thirty vessels have been totally wrecked; also an immense amount of property and forty lives lost. Wharves, boats and fish oil on shore were washed away. Steamers are leaving St. John's with relief for the sufferers, there being over one thousand people left destitute.

One of the most extensive robberies ever committed in St. Louis occurred on Sunday night. The wholesale jewelry store of Meyer & Lobe was entered, the safes opened, and from ten to fifteen thousand dollars' worth of property stolen, consisting of watches, both gold and silver, diamond rings, and a large lot of gold and silver chains.

Gen. Canby's order for the election in the Carolinas, on the 19th and 20th of November, has been issued. It prohibits violence, or threats of violence or discharge, or other oppressive means to prevent any person from registering or voting, and parties violating the order will be arrested and tried by a military commission.

The substitution of the steel for the iron rail is being steadily carried on in England, and large establishments for the manufacture of steel, particularly by the Bessemer process, through which large masses of the molten iron are rapidly changed into steel, are growing up, both in that country and the United States.

Work on the Antietam National Cemetery has been suspended for the want of funds. This has been occasioned by New York and Pennsylvania withholding their subscriptions until an examination could be made of the accounts of the officers.

Messrs. Cushing, Johnson, and James, the commissioners appointed to codify the laws of the United States, have nearly completed their work, and will make a report to Congress at the beginning of the session. The patent and military laws have been greatly reduced and simplified.

The Ritualists are, it is said, rapidly increasing in New York. The latest accession to their ranks is the parish of the Annunciation, Fourteenth street, of which Dr. Seabury has been so long the rector. The services are almost entirely choral, and the boys wear surplices, as at St. Albans.

The sub-judiciary committee to examine into Maryland affairs, now in session, have decided to enforce secrecy, on the ground that a revelation of the proceedings embarrasses the committee and subjects witnesses to criticism from the people among whom they reside.

The Governor of Massachusetts has taken the lead this year in designating a day for the usual annual thanksgiving, Thursday, the 28th of November, is the day set apart for the purpose. It is probable that the same day will be designated in most if not all the other States.

The mortality report in New Orleans gives 35 interments from yellow fever to Sunday morning, and 31 for the day ending at 6 o'clock yesterday morning. The weather has again become oppressively warm, consequently the epidemic is not decreasing.

Archbishop Purcell, of Cincinnati, has written a letter in which he declares that he is opposed to a union of Church and State, and prefers the condition of the Catholic Church in the United States to its condition in Italy, France or Spain.

The Cincinnati Enquirer, the leading Democratic organ of Ohio, announces George H. Pendleton as the choice of the Ohio Democracy for President in 1868. Grant will be the choice of the Radicals.

The steamship Berlin, the second one of the line to open in the Spring, between Baltimore and Bremen, was launched recently at Greenock, Scotland.

The remains of the late Sir Frederick Bruce, British Minister at Washington, have reached Liverpool on the Royal mail steamer China, from Boston.

The Syracuse Journal (radical) says that Governor Hayes, the radical Governor elect of Ohio, congratulated the radicals, in a speech made since the election, upon their deliverance from the colored suffrage issue for several years to come.

The friends of the President assert that he denies the correctness of the language attributed to him by his Boston organ, to wit: that he would forcibly resist Congress in case the latter passed an act suspending him from office before trial.

The official election returns in Louisiana showing a majority for a convention, General Mower has issued an order convoking one to meet at Mechanics' Institute Hall, in the city of New Orleans, on the 23d proximo.

The Government, in its first expedition to Alaska, sent a steam fire engine and an assortment of domestic animals and poultry.—Sitka is to be settled according to American ideas.

The schooner Peacock, in Hampton Roads, from Galveston, had four cases of yellow fever during her voyage, one of which proved fatal. The others recovered.

A New York policeman was murdered by a woman of the town, in the public street, on Saturday, when he was endeavoring to arrest her.

Gen. Pleasanton has tendered his resignation which has been accepted, to take effect on the first of January next.

A disease called the "blind staggers" is prevalent among horses in Somerset county, Md.

VIRGINIA NEWS.

Yesterday afternoon Hunslett, in a speech on Capitol Square, in Richmond, denounced the Northern measure. One of them said he was a liar, when the colored men attempted to mob him. They caught an unoffending German, and were about to kill him, when the police rescued him. The colored men followed to the station house, throwing stones, and behaving in a very disorderly manner. All is quiet now. There is much excitement in regard to the elections.

The Lynchburg News says: "We are informed that Mr. James T. Williams, of this city, has sold his interest (7-16) in the Hot Springs, Bath county, to Mr. Samuel C. Tardy of Richmond, for \$50,000 cash. This is one of the largest (if not the largest) sales of real estate made in Virginia since the close of the war."

We have received the first number of the Loudoun Standard, published weekly in Leesburg, which takes the Radical side in politics; Geo. A. Tavenner, editor and proprietor. It is a neatly printed sheet.

There is a large crop of wheat being seeded in Fauquier and Rappahannock counties this fall.

The bridge over the Rappahannock river at the Fauquier Springs has been completed.

LETTER FROM FAIRFAX.

[Correspondence of the Alexandria Gazette.] FAIRFAX C. H., VA., Oct. 21st, 1867.—Our County Court adjourned to-day after a protracted session. There were three cases of felony for trial, and yet the Commonwealth's Attorney was not present, the rumor being that he thought he would be better employed in deluding the unsophisticated colored people to help him and his accomplices to get into office. At the request of the Court Lawrence B. Taylor of your city acted for the State, and while Tucker will receive his pay another has to do his duties. We have one consolation, however, when we have such men assigned for the State as Mr. Taylor, who know how to perform their duty, and so knowing do perform it; but as for Tucker, Oh gracious! In these days of crime, rapine and murder, what a temptation it is to persons disposed to evil to "clip in," knowing that the State prosecutor will either be absent or if present that his efforts might serve to acquit rather than convict the criminal. Tempora mutantur, &c.

There were many land sales made according to the advertisements which appeared in the Gazette, for fair prices.

One case of felony was tried. A man by the name of — was prosecuted for burning a barn belonging to Mr. Brady, and was sentenced to the penitentiary for four years. Mr. Taylor for the State, Judge Charles E. Sinclair for defence. You perceive people will be convicted of crime when there is intellect to prosecute them.

There were many decrees taken in plain cases, and other matters pertaining to roads were acted upon.

Your correspondent "Pequod" is too busy "electioneering," and is now addressing the sovereigns—so I send you this. RAD.

SYNOD OF BALTIMORE.—The Synod of Baltimore adjourned yesterday. They disposed of the reunion question by declaring that the "experience of our church before and since its division has proved conclusively that the unity of the spirit in the bonds of peace was better secured by their separation than their organic union; and we except the teachings of this experience as decisive thus far, that, unless now agreed upon, the points which, then decided them, the time is not yet come for an organic reunion. And we feel constrained to say that in the basis proposed by the joint committee, such agreement is not made sufficiently apparent."

A paper was adopted looking to a union with the United Presbyterian Reformed Presbyterian Churches. The dividing line of the Baltimore and Potomac Presbytery was fixed at the Patuxent. Frederick, Md., was fixed as the place and the third Thursday of November, 1868, as the time for the next meeting of Synod.

LETTER FROM POSTMASTER GENERAL RANDALL.—Postmaster General Randall, in reply to a friend in Wisconsin, asking what he ought to do about supporting the republican State ticket, writes that he would never vote for any man or any ticket who favor impeachment of the President; that there is neither reason nor excuse for this war upon Mr. Johnson; that the latter has endeavored to bring about, upon just terms, a complete restoration of the Union; which all republicans once approved; he has had no other policy, and if this policy had been carried out, there would have been perfect peace the Union fully restored, and represented by the Southern States would be filling the vacant seats of the House of Representatives.

He says that the republican party as constituted to-day does not favor a single principle upon which the government carried on the war; that it is time the work of the dominant party, outside of the constitution, was stopped, and the country restored, and as it ought to have been long ago, if the republican party had not abandoned its own tenets and made war upon the President because he was true to the principles upon which the people elected him to his high office.

FOREIGN NEWS.—Important news reaches us by the cable. The Garibaldians have, it is said, evacuated the Papal States. Italy having pledged herself to enforce the Convention of September, the French naval expedition to Rome has been abandoned. The Paris Patrie says that French troops were also ready to pass the Alps. It is announced from Florence, on the faith of rumors current in that city and not contradicted, that Garibaldi has made his escape from Capra. Later advices from Florence state that the Italian Premier, Rattazzi, has resigned and is to be succeeded by General Menabrea. The evacuation of the Papal States by the Garibaldians has been only partial. Some bands still remain across the frontier.

Still later accounts from Italy received at London are very conflicting. It is now stated that Menotti Garibaldi not only maintains his position in the Roman territory, but his command is hourly growing larger. On the other hand dispatches from Rome assert that Menotti, with all his followers, has fled from the Papal dominions and has abandoned the attempt on Rome.

No answer has thus far been returned by Italy to the ultimatum of Napoleon, so that the earlier despatch we have given must be regarded as of doubtful authority.

From Dublin we learn that Nagle, Warren and other Fenian prisoners are to be tried before a special commission on the 25th of November. It is rumored that the U. S. Government will provide for the defence of Nagle and Warren. It is also reported that the escaped Fenian, Kelly, has been shot at and was badly wounded near Dublin. Several of the Irish police have been fired upon in the night but none hurt.

The treaty with the U. S. for the sale of the Russian possessions in America has been ratified by the Czar.

CHURCH CASES.—The Judge of our Circuit Court, (says the Rockingham Register,) on Monday morning, decided the petitions of the different Methodist Churches in this county to be spread upon the minutes of the court. It will be remembered that our Legislature, at its last session, in order to settle and quiet the division in the Methodist Church in Virginia, passed a law authorizing the congregations of the churches to determine, by the votes of their members, to which division of the church they would attach themselves; that such action, upon the approval of the Judge of the Circuit Court, should be spread upon the minutes of the court, and that the same should vest the title to and the control and use of the property in the division of the church for which the majority of members cast their votes. An overwhelming majority of the votes of the several congregations in Rockingham were cast for the M. E. Church South.

CUBA AND OLD SPAIN.—Our telegraphic news from Cuba indicates a rapidly increasing discontent among the people. Evidently the Spanish government has carried taxation and bad rule to such an extent that the island to-day is more disposed to revolt than at any other period of its history. The latest act of the authorities, indicating fear of insurrection, is the surprising by the police of a Masonic lodge while assembled for business. They took the members into custody. Among them was the Lieutenant Governor of Sagua. The Havana lodge, on learning of this raid, suspended its meetings.—N. Y. Herald.

A COTTON AND BREAD ESTIMATE.—An intelligent merchant estimates that the shrinking in the value of American cotton for the year, between September, 1867 and 1868, will be equal to \$70,000,000 or \$80,000,000, about one-half of which may be made up by breadstuffs, in the corn and wheat sent to Europe. It is high time that, in the public interests, Congress took off the 22 cents tax per pound on cotton. Cotton is no longer King with us. The war dethroned him for a season here, but not forever, and divided his reign between the Old World, the New World and the island of the sea.

Representative Boutwell, of Massachusetts, says he has not abandoned one iota of his purpose to follow up impeachment.

An organized band of horse thieves in Butler county, Pa., are committing extensive depredations.

The girls of the blue grass region of Kentucky, are said to be the handsomest in the country.
